

CLUTCH REBUILD SERVICES

Australian Clutch Services offer a clutch rebuild service for a wide range of agricultural applications as well as motorsport multi-plates and rare classic car applications. This service is ideal for applications where new replacement components are no longer available or where the old clutch assembly only needs a freshen up (Such as most motorsport applications).

- Available through the ACS distribution network
- Ability to rebuild rare or obsolete clutch kits and components
- In-house testing to ensure correct operation
- Over 30 years of experience in clutch rebuilds
- Wide range of rare clutch components (diaphragms, friction materials etc.)
- Fast turnaround for tight time schedules

"Our mission is to provide the highest Quality, Innovation & Service to our customers across Australia and around the world"
