

THE AUSTRALIAN CLUTCH SERVICES

YOUTUBE CHANNEL

ACS FEATURE

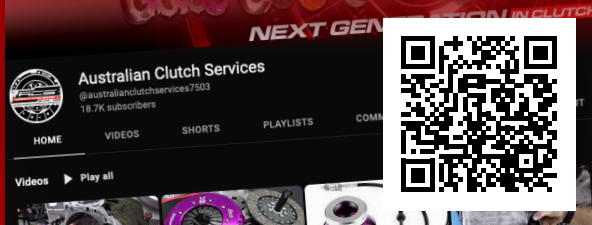

The Australian Clutch Services YouTube Channel offers a wide range of technical support videos as part of the ACS ClutchTech technical support series. The channel is one of the most comprehensive clutch focused channels on YouTube and covers a wide range of topics including general clutch installation tips through to vehicle specific installation guides.

With over 60 technical videos available, the channel is ideal for workshops who may be experiencing difficulty with a unique installation procedure or those looking to expand their knowledge on clutch systems.

The channel is accessible through several ways:

OPTION 1

Search Australian Clutch Services in YouTube and follow the link to our channel. Alternatively, you can scan the QR code below to be directed straight to the video library.

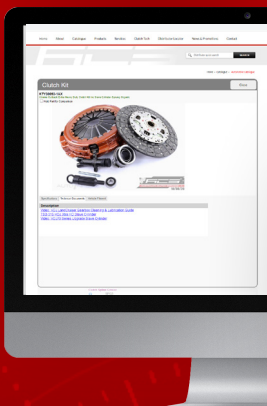

OPTION 2

Scan the QR code on the bottom of any applicable ACS Technical Support Bulletin (TSB). This will take you directly to a video on the specific procedure in the TSB.

OPTION 3

Search our Online Catalogue. Clutch kit specific technical videos can be found under the "Technical Documents" tab on the ACS online catalogue. Simply search for the vehicle, click on the clutch kit and navigate to the Technical Documents tab.

OPTION 4

Search for your query on YouTube and if we have a video available for that, it will likely be available in the top few videos displayed.

"Our mission is to provide the highest Quality, Innovation & Service to our customers across Australia and around the world"

NEXT GENERATION IN CLUTCH
